Sanitary/Watertight Doors and Frames

For specialized medical, laboratory, food processing and sanitary applications, Security Metal Products Corp. offers a custom sanitary and watertight solution to meet your job-specific requirements. Doors are specifically designed so that either a heavy wash-down or pressure washing can be done without compromising the interior construction of the door. Hardware reinforcements in doors and frames are provided in a sealed condition, allowing for cleaning fluids to drain. A variety of sizes and configurations are available. Please contact us with your specific requirements. If you can conceive it, we can build it!

SANITARY/WATERTIGHT SYSTEM FEATURES

- Sealed door core
- Welded seamless door edge
- G90 galvanized or stainless steel as required
